

# Training and Evaluation Outline Report

Status: Approved

05 Feb 2019

Effective Date: 05 Jun 2019

Task Number: 08-CO-1302

Task Title: Conduct Sustainment Support Operations

**Distribution Restriction:** Distribution authorized to the DOD and DOD Contractors only Foreign disclosure review is required prior to release for national disclosure policy (NDP) compliance and the protection of operational data associated with US tactics, techniques, and procedures (TTPs). This determination was made on 8 January 2018.

**Destruction Notice:** Destroy by any method that will prevent disclosure of contents or reconstruction of the document

**Foreign Disclosure: FD2 -** This training product has been reviewed by the training developers in coordination with the AMEDDC&S, HRCoE; JBSA-FSH foreign disclosure officer. This training product can be used to instruct international military students when the country meets specific criteria. Specify requirement(s) that each country must meet (select all that are appropriate): 1) Must purchase equipment through FMS N/A ; 2) Must be a member of a specific group or coalition N/A ; 3) Must have an accepted clearance (must be authorized under an identified general security agreement with the US); 4) May not attend FD3 modules N/A ; 5) Other "Army Security Cooperation Agreement for International Foreign Military Students" .

**Conditions:** The unit receives an order or the commander derives a mission from higher headquarters (HQ) alerting the unit of the need to conduct sustainment support operations in support of the unified land operations. The commander issues support planning guidance for conduct sustainment support operations in a possible complex and dynamic operational environment with hybrid threats. Four or more operational variables of political, military, economic, social, information, infrastructure, physical environment, time (PMESII-PT) should be present. The unit has communications with subordinate and adjacent elements, and higher HQ. The operational areas and digital systems are established and functioning. Personnel and equipment/mission-oriented protective posture (MOPP) gear are also available. All standard operating procedures (SOPs) have been developed.

Note: Sustainment support operations is conducted internal to the unit IAW the unit's capabilities.

Note: The condition statement for this task is written assuming the highest training conditions reflected on the Task Proficiency matrix required for the evaluated unit to receive a trained (T/T-) rating. Not all sub-steps of this task are applicable to every situation. Therefore, the evaluating HQ commander will determine prior to evaluation which steps are designated "N/A" in advance of conducting the evaluation.

Note: Conditions terms definitions:

Dynamic Operational Environment: Three or more operational and two or more mission variables change during the execution of the assessed task.

Complex Operational Environment: Changes to four or more operational variables impact the chosen friendly course of action (COA)/mission.

Live Training Environment: Training executed in field conditions using tactical equipment (involves real people operating real systems).

Hybrid threat: Diverse and dynamic combination of regular forces, irregular forces, and/ or criminal elements all unified to achieve mutually benefiting effects.

Some iterations of this task should be performed in MOPP 4.

**Standards:** The commander, supported by unit personnel, conducts sustainment support operations to ensure the appropriate internal support is provided from unit HQ to unit elements continuously from the outset of operations at levels that sustain the unit until successful mission completion in accordance with (IAW) (ADP 4-0), commander's intent, orders from higher HQ, established timelines, and the SOPs.

Note: Leaders may include the executive officer, first sergeant (1SG), senior healthcare noncommissioned officer (NCO), supply NCO, and others as determined by the commander.

**Live Fire:** No

**Remarks:** None

**Notes:** None

**Safety Risk:** Low

**Task Statements**

**Cue:** The commander receives an operation order (OPORD) directing the unit to conduct sustainment support operations.

**DANGER**

Leaders have an inherent responsibility to conduct Risk Management to ensure the safety of all Soldiers and promote mission accomplishment.

**WARNING**

Risk Management is the Army's primary decision-making process to identify hazards, reduce risk, and prevent both accidental and tactical loss. All Soldiers have the responsibility to learn and understand the risk associated with this task.

**CAUTION**

Identifying hazards and controlling risks across the full spectrum of Army functions, operations, and activities is the responsibility of all Soldiers.

**Environment:** Environmental protection is not just the law but the right thing to do. It is a continual process and starts with deliberate planning. Always be alert to ways to protect our environment during training and missions. In doing so, you will contribute to the sustainment of our training resources while protecting people and the environment from harmful effects. Refer to the current Environmental Considerations manual and the current GTA Environmental-related Risk Assessment card. ATP 3-34.5

**Safety:** In a training environment, leaders must perform a risk assessment in accordance with current Risk Management Doctrine. Leaders will complete the current Deliberate Risk Assessment Worksheet in accordance with the TRADOC Safety Officer during the planning and completion of each task and sub-task by assessing mission, enemy, terrain and weather, troops and support available-time available and civil considerations, (METT-TC). Note: During MOPP training, leaders must ensure personnel are monitored for potential heat injury. Local policies and procedures must be followed during times of increased heat category in order to avoid heat related injury. Consider the MOPP work/rest cycles and water replacement guidelines IAW current CBRN doctrine. ATP 5-19
